## **Fireworks Display Moved To New Location**

It's an annual tradition in Sugar Creek, but it has a new twist in 2022.

This year's Fourth of July fireworks display will be moved to LaBenite Park, off Missouri 291.

Pam Burnham, Parks and Recreation Program Director, said the display was changed because of construction happening at the old location.

"LaBenite Park has the acreage and parking capacity to accommodate the annual display," Burnham said.

The fireworks display has a large regional draw and is one of few displays that continued - even during COVID. In fact, that was the year Burnham witnessed her first Sugar Creek display.

"I have loved displays all my life and look forward to 'oohing' and 'aahing' over each explosion," Burnham said. "I was so thrilled to see such a grand fireworks display almost from my own backyard."

Police Chief Chris Soule reminded attendees access to LaBenite Park will only be accessible from northbound 291. He said the crossing at Cement City Road will be closed.

There are two lots at LaBenite Park for guests to park, and Soule said there is plenty of grass area for them to sit and enjoy the show.

The police department, fire department and public works department work together to make the whole day a success. They start working in May to ensure the whole day runs smoothly for the public.

The festivities actually begin at 11:00 a.m. with the annual parade, and Soule suggested parade goers get to their parade locations early

before Sterling Ave. shuts down at 10:30 a.m.

Soule said he enjoys participating in the parade.

"I enjoy watching the joy on the kids' and their parents' faces during the parade," Soule said. "I always enjoy driving in the parade and seeing the current and past residents."

Following the parade, residents can enjoy the day at LaBenite Park - where families can grill, picnic or play on the new playground equipment. Burnham said the boat ramp will be open for fishermen and boaters. The traffic patterns from 291 will change around 5:30 p.m., and the easternmost part of the park will be closed off so Wald & Co can set up for the fireworks display. Burnham encourages guests to get

to their spots early.

Burnham is happy to help continue this important tradition for Sugar Creek. She said the community's dedication to traditions is one of the many things she enjoys about the community.

"Even when other local cities cancelled their fireworks displays during COVID, Sugar Creek continued their traditions with added precautions in place. That passion and loyalty to continue through a pandemic together and keep these traditions alive for its families and neighbors, speaks volumes for Sugar Creek. This year, with the display so close to the Missouri River, will absolutely be a spectacular sight."

The fireworks display will begin at dusk; around 9:00 p.m.

# NEWS FROM CITY DEPARTMENTS

## Fire Department

**FIRESIDE CHAT**– What would the Fourth of July be without BBQs, family gatherings, and fireworks? In order to help keep this holiday enjoyable and safe, remember that fireworks need to be handled with care by adults who have not been indulging in alcohol and who have some experience in handling these types of explosives.

The City of Sugar Creek has one of the best shows around. If your family would like to enjoy the holiday in a safe fashion, please join us at LeBenite Park at dusk. Viewing public fireworks displays handled by professionals is the safest way to enjoy fireworks, and even then, it's important to keep a safe distance away.

But many Americans, including myself, enjoy celebrating our country's independence by having our own small family fireworks show. Many people consider fireworks to be harmless fun, when in fact they can be extremely dangerous, especially when used near children, handicapped and animals.

Every year, thousands of Americans end up in the ER with fireworks-related injuries, according to the U.S. Consumer Product Safety Commission. Most injuries are burns, and nearly half of these incidents involve hands and fingers. Many of these injuries are to teens and children.

To ensure your family can remain out of the ER, please follow these tips from the US Consumer Product Safety Commission.

- Experienced adults should supervise the use of fireworks.
- Only buy fireworks from reputable vendors.
- Be sure to read fireworks labels and follow directions carefully.
- Keep a fire extinguisher, hose or bucket of water nearby.
- Light fireworks one at a time.
- Discard fireworks as advised by the manufacturer.
- Don't consume alcohol when using fireworks.
- Never light fireworks inside or near other objects.
- Do not stand over fireworks while lighting them
- Back up immediately after lighting fireworks
- Never point fireworks towards people.
- Never try to relight fireworks that fail to ignite.
- Do not wear loose clothing while using fireworks.
- Fireworks should never be set off in glass or metal containers.
- Never carry fireworks in pockets.
- In case of injury or fire call 9-1-1 immediately
- Young children should never use fireworks, including sparklers.

Although sparklers may seem safe, they carry hazards as well. A sparkler can burn at 2,000 degrees Fahrenheit, which is as hot as some blowtorches.

Stay Safe and enjoy celebrating responsibly!

— Captain Brandon Smith, Sugar Creek Fire Department

## Public Works

**2021 ANNUAL WATER QUALITY REPORT**– The 2021 calendar year Consumer Confidence - Annual Water Quality Report for the City of Sugar Creek will **NOT** be mailed to each individual customer but is available online at <http://www.dnr.mo.gov/ccr/MO1010773.pdf>.

If there are any questions regarding this report, please feel free to contact Public Works at (816) 252-4413.

There are positive steps that you can take to reduce this menace. Since many generations of mosquitoes can breed right in your yard, you can help eliminate the potential breeding grounds around your home. If there are any places around your property where water collects, such as water-holding containers, house drains, and ornamental ponds, check your yard and home for old tires, tin cans, bottles, jars, buckets, and other containers. Repair leaky pipes, outside faucets, clean clogged roof gutters and drain flat roofs.
